TRANSCRIPTION OF RECORDED CLAIMANT STATEMENT **FILE REF: CS-2026-881042**

Claim Investigation Division • Sworn Telephonic Examination

Claimant / Deponent: David M. Miller
Interviewer: Sarah Jenkins (Senior Adjuster, Apex Mutual)
Date of Examination: October 15, 2026 at 09:30 AM CDT
Method: Recorded telephone conference with consent

Q: Mr. Miller, please state your full name and confirm you understand this statement is recorded.
A: My name is David Michael Miller, residing at 1420 North Lake Shore Drive, Chicago. Yes, I give full permission to record this statement.

Q: Please describe the vehicle you were driving on October 14, 2026.
A: I was driving my 2018 Hyundai Elantra SEL four-door sedan, silver in color. License plate 782 4912.

Q: What time did the accident take place, and what were the road conditions?
A: It was approximately 8:35 in the morning. I was commuting to my office in the Loop. The weather was damp with light drizzle, and the pavement was wet but there was no standing puddle.

Q: Walk us through what happened as you approached Michigan Avenue and Adams Street.
A: I was in the middle northbound lane on Michigan Ave. As I came towards Adams, the traffic light turned yellow and then red. Two vehicles ahead of me stopped, so I applied my brakes normally and came to a full stop about six or seven feet behind a black SUV. My foot remained firmly on the brake pedal.

Q: How long were you stationary before the collision occurred?
A: At least three to four full seconds. I was completely stopped, looking ahead waiting for the green arrow.

Q: Describe the impact.
A: Suddenly there was a loud tire chirp and a very hard crash into my rear bumper. My body was thrown back against the headrest and forward against the locked seatbelt. The impact pushed my car forward about two feet, but fortunately I didn't hit the vehicle in front of me.

Q: What did you do immediately following the impact?
A: I turned on my hazard flashers, unbuckled, and stepped out. The driver behind me was in a white 2019 Chevy Silverado pickup. He got out immediately and apologized, saying, 'Man, I'm so sorry, I saw you stopped but my truck slid when I tapped the brakes on the wet street.'

Q: Did the police respond to the scene?
A: Yes, Officer Kowalski from Chicago Police arrived within ten minutes. He took down both our statements and insurance information, and handed the other driver a ticket for failure to reduce speed.

Q: What visible damage did your vehicle suffer?
A: The rear plastic bumper is crushed and cracked all along the middle and right side. The trunk lid is dented upwards and won't latch shut tightly, and the right rear taillight plastic is completely shattered with pieces on the road.

DEPONENT ATTESTATION: I certify under penalty of perjury that I have read the foregoing transcription of my recorded statement and confirm it is a true and correct record of the collision.
