WITNESS COLLISION OBSERVATION STATEMENT **REF: CHP-2026-881290**

Independent Eyewitness Statement Gathered by Claims Investigation

Witness: David Sterling
Employment: Chevron Service Station Assistant Manager (Saratoga Ave & Hwy 85)

Interview Date: October 21, 2026 at 02:15 PM PDT
Interviewer: Craig Wallace (SIU)

WITNESS NARRATIVE & CCTV SURVEILLANCE TIMELINE

Statement of David Sterling, age 34:

1. On Sunday night, October 18, 2026, I was working the night shift at the Chevron station located at 12200 Saratoga Avenue, right next to the on-ramp for Highway 85 Northbound.

2. At approximately 11:30 PM, a silver compact sport coupe with a hood scoop (matching the Toyota Celica shown in the photographs) pulled into our station lot. The car was making a loud dragging noise because the plastic under the front bumper on the driver's side was hanging down.

3. The driver (a male in his early 40s matching the photo of Mark Henderson) got out, inspected the front left side of the vehicle, kicked the dragging bumper piece, and got back into the car without buying fuel.

4. At approximately 11:38 PM, I watched the vehicle accelerate aggressively onto the northbound Highway 85 on-ramp. About five minutes later, I heard sirens from California Highway Patrol patrol cars heading onto the highway.

5. Our station security video archives store footage for 30 days. I reviewed camera #4 covering the entrance apron and confirmed the silver coupe entered at 11:31:14 PM and departed onto the highway ramp at 11:38:05 PM.

6. I provided a thumb drive copy of the video footage to Officer Alvarez of the Highway Patrol on Monday morning.

WITNESS DECLARATION: I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.
